Financial Accounting An introduction. Fourth Edition. Edited by Jacqui Kew and Alex Watson. The unique narrative approach taken by the book contextualizes accounting concepts for students and this "allows for reference to be made back to earlier events, concepts or transactions with more meaning for the reader than a more formal text could achieve."

Financial Accounting: an introduction offers CA stream students a strong conceptual framework in preparation for further studies in Accounting, while teaching non-CA stream students financial literacy, a skill that will benefit them in both their personal and professional lives.

Financial & Management Accounting An Introduction seventh edition Pauline Weetman The seventh edition of this well-respected and fully updated text retains all of the features that have contributed to the book’s popularity: focus on the accounting equation, student activities and real-life commentaries throughout each chapter, a clear and accessible writing style, and inclusion of real-world case studies. With a strong emphasis on the Conceptual Framework of the International Accounting Standards Board, Financial & Management Accounting: An Introduction guides students in understanding the ‘why’ and not just the ‘what’ of financial and management accounting. Key features: New case studies containing examples from real-world companies New coverage on fair value throughout New coverage of the Strategic Report and Directors’ Report Fully up-to-date with International Financial Reporting Standards, IFRS Focuses on specific knowledge outcomes, with end-of-chapter self-evaluation Questions are graded according to difficulty to test student understanding Definitions and terminology is fully in-line with the revised IASB Conceptual Framework Experience-driven conversations between two managers are included throughout, providing a practical examination of real life scenarios. Financial & Management Accounting: An Introduction is aimed at first-level undergraduates on business studies degrees taking introductory financial and management accounting classes; first-level specialist accounting undergraduate students; introductory core accounting for MBA and postgraduate specialist Masters students, focusing on analysis through the accounting equation and a questioning approach to problem solving; and professional courses where accounting is introduced for the first time. “MyAccountingLab advert” Pauline Weetman BA, BSc (Econ), PhD, CA, FRSE, is Professor Emerita of Accounting at the University of Edinburgh, and has extensive experience of teaching at undergraduate and postgraduate level, with previous chairs held at Stirling, Heriot-Watt, Strathclyde and Glasgow Universities. She received the Distinguished Academic Award of the British Accounting Association in 2005. She has convened the examining board of the Institute of Chartered Accountants of Scotland and was formerly Director of Research at ICAS.

Financial Accounting: The Question Book 5e accompanies the fifth edition of Financial Accounting: An introduction. The Question Book is aimed at first-year students of financial accounting at universities and universities of technology and is suitable for CA stream as well as non-CA stream students.

Introductory Accounting, Finance and Auditing for Lawyers, Fourth Edition, continues to be packed with incisive substance on accounting and finance, and also emphasizes the role of auditing in the financial reporting process, an element given substantial new weight under the Sarbanes-Oxley Act. The Fourth Edition reflects the significant developments in the world of accounting, finance and auditing, including those generated by the major scandals such as Enron and the responses generated by Sarbanes-Oxley, from the Act itself, to the Public Company Accounting Oversight Board (PCAOB) to the SEC. The book retains the same basic architecture, narrative style, problems, and pitch to law students as in previous editions, and adds substantial new material. Additions include three entirely new Chapters, several new Sections added to existing Chapters, new Tables, and enhanced technical formatting. New Chapters include Audit Practice, an introduction to the key features of a financial audit including an Illustration and Problem concerning the leading statistical sampling techniques auditors apply in tests of internal control over financial reporting. Another new Chapter is Finance Theory, a rigorous but still introductory account of modern portfolio theory, CAPM and efficient market theory with critiques from behavioral finance inspired in part by the Enron-style accounting scandals. Previous users of the book will find all the familiar Illustrations and Problems, along with a solid dose of new materials geared toward the increasing reliance being placed on auditing, audit committees, and corporate governance in the era ushered in by Sarbanes-Oxley and PCAOB.

David Spiceland, Wayne Thomas and Don Herrmann have developed a unique text based on over 50 collective years of experience in the classroom. They’ve brought together best practices like highlighting Common Mistakes, offering frequent Let’s Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style. The new 2nd edition of Financial Accounting, Spiceland, Thomas, Herrmann, has been developed with feedback from over 330 reviewers and focus group participants from across the country. The following list of changes and improvements is a testament to the many hours that reviewers spent analyzing the 1st edition, helping make Financial Accounting, 2nd edition, the best book of its kind.

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Financial Accounting - The best source for understanding why and when financially sound decisions are made in business today. Improvements made to the second Canadian edition have been focused on satisfying the differing needs and abilities of students. This edition has been enhanced with new pedagogical features designed to help students approach the material from different perspectives. This new edition also boasts enhanced coverage of the International Financial Reporting Standards (IFRS) and the Accounting Standards for Private Enterprise (ASPE), clearly distinguishing between these two approaches throughout the text.
