Preparing students to be active, informed, literate citizens is one of the primary functions of public schools. But how can students become engaged citizens if they can't read, let alone understand, their social studies texts? What can educators--and social studies teachers in particular--do to help students develop the knowledge, skills, and motivation to become engaged in civic life? Building Literacy in Social Studies addresses this question by presenting both the underlying concepts and the research-based techniques that teachers can use to engage students and build the skills they need to become successful readers, critical thinkers, and active citizens. The authors provide targeted strategies--including teaching models, graphic organizers, and step-by-step instructions--for activities such as * Building vocabulary, * Developing textbook literacy skills, * Interpreting primary and secondary sources, * Applying critical thinking skills to newspapers and magazines, and * Evaluating internet sources. Readers will also learn how to organize classrooms into models of democracy by creating learning communities that support literacy instruction, distribute authority, encourage cooperation, and increase accountability among students. Realistic scenarios depict a typical social studies teacher's experience before and after implementing the strategies in the classroom, showing their potential to make a significant difference in how students respond to instruction. By making literacy strategies a vital part of content-area instruction, teachers not only help students' better understand their schoolwork but also open students' eyes to the power that informed and engaged people have to change the world.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

In 1955, Rosa Parks refused to give her bus seat to a white passenger in Montgomery, Alabama. This seemingly small act triggered civil rights protests across America and earned Rosa Parks the title "Mother of the Civil Rights Movement." This biography has black-and-white illustrations throughout.

Shows parents that teaching and learning can happen when they do simple things that make the most of their child's natural curiosity and show that learning is fun and important. This will encourage the child to study, learn, and stay in school.

News and journalism are in the midst of upheaval: shifts such as declining print subscriptions and rising website visitor numbers are forcing assumptions and practices to be rethought from first principles. The internet is not simply allowing faster, wider distribution of material: digital technology is demanding transformative change. Out of Print analyzes the role and influence of newspapers in the digital age and explains how current theory and practice have to change to fully exploit developing opportunities. In Out of Print George Brock guides readers through the history, present state and future of journalism, highlighting how and why journalism needs to be rethought on a global scale and remade to meet the demands and opportunities of new conditions. He provides a unique examination of every key issue, from the phone-hacking scandal and Leveson Inquiry to the impact of social media on news and expectations. He presents an incisive, authoritative analysis of the role and influence of journalism in the digital age.

NEW STUDENT GETS OLD TEACHER The bad news is that Cara Landry is the new kid at Denton Elementary School. The worse news is that her teacher, Mr. Larson, would rather read the paper and drink coffee than teach his students anything. So Cara decides to give Mr. Larson something else to read-her own newspaper, The Landry News. Before she knows it, the whole fifth-grade class is in on the project. But then the principal finds a copy of The Landry News, with unexpected results. Tomorrow's headline: Will Cara's newspaper cost Mr. Larson his job?

What is a rubric? A rubric is a coherent set of criteria for student work that describes levels of performance quality. Sounds simple enough, right? Unfortunately, rubrics are commonly misunderstood and misused. The good news is that when rubrics are created and used correctly, they are strong tools that support and enhance classroom instruction and student learning. In this comprehensive guide, author Susan M. Brookhart identifies two essential components of effective rubrics: (1) criteria that relate to the learning (not the "tasks") that students are being asked to demonstrate and (2) clear descriptions of performance across a continuum of quality. She outlines the difference between various kinds of rubrics (for example, general versus task-specific, and analytic versus holistic), explains when using each type of rubric is appropriate, and highlights examples from all grade levels and assorted content areas. In addition, Brookhart addresses * Common misconceptions about rubrics; * Important differences between rubrics and other assessment tools such as checklists and rating scales, and when such alternatives can be useful; and * How to use rubrics for formative assessment and grading, including standards-based grading and report card grades. Intended for educators who are already familiar with rubrics as well as those who are not, this book is a complete resource for writing effective rubrics and for choosing wisely from among the many rubrics that are available on the Internet and from other sources. And it makes the case that rubrics, when used appropriately, can improve outcomes by helping teachers teach and helping students learn.
