Ethics: Inventing Right and Wrong. This title presents an insight into moral skepticism of the 20th century. The author argues that our every-day moral codes are an 'error theory' based on the presumption of moral facts which, he persuasively argues, don't exist. His refutation of such facts is based on their

J. L. Mackie, *Ethics: Inventing Right and Wrong*, Penguin 1977. Some thinkers hold that moral principles can be deduced from reason and introspection, while others hold that moral principles can be deduced from a careful examination of the varieties of human behavior observed across space and through time.
