I am making my way into the book at several places and may not finish it soon, but that is the way I proceed with this subject.

Think: A Compelling Introduction to Philosophy: Amazon.co ...

Simon Blackburn surely did make me think...lots. At times easier than others, and there were many times I had to re-read bit several times. There were also times that lead me to crack open a few other web pages to find out more about certain things/topics that were new to me. So, for these reasons alone, this book was quite an education.

Think: A Compelling Introduction to Philosophy by Simon ...

Think sets out to explain what they are and why they are important. Simon Blackburn begins by putting forward a convincing case for the study of philosophy and goes on to give the reader a sense of how the great historical figures such as Descartes, Hume, Kant, and Wittgenstein have approached its central themes.
