Everyone was good at something except the little brown bushrat. He couldn't jump or run very fast, he certainly couldn't swim and he definitely knew that he wasn't very beautiful. He was just a scrawny little bushrat. But when a bush fire begins to spread, only one animal knows what to do.

"Harnden skillfully interweaves dramatic action sequences with the backstories of the book's central figures, and briskly highlights the failures of U.S. policy in Afghanistan. Readers will be swept up in this little-known chapter of America's 'forever war.'" --Publishers Weekly This dramatic true story reveals the secret mission of the eight members of the CIA's Team Alpha, the first Americans to be dropped behind enemy lines in Afghanistan after 9/11. America is reeling; Al-Qaeda has struck and thousands are dead. The country scrambles to respond, but the Pentagon has no plan for Afghanistan—where Osama bin Laden masterminded the attack and is protected by the Taliban. Instead, the CIA steps forward to spearhead the war. Eight CIA officers are dropped into the mountains of northern Afghanistan on October 17, 2001. They are Team Alpha, an eclectic band of linguists, tribal experts, and elite warriors: the first Americans to operate inside Taliban territory. Their covert mission is to track down Al- Qaeda and stop the terrorists from infiltrating the United States again. First Casualty places you with Team Alpha as the CIA rides into battle on horseback alongside the warlord Abdul Rashid Dostum. In Washington, DC, few trust that the CIA men, the Green Berets, and the Americans' outnumbered Afghan allies can prevail before winter sets in. On the ground, Team Alpha is undeterred. The Taliban is routed but hatches a plot with Al-Qaeda to hit back. Hundreds of suicidal fighters, many hiding weapons, fake a surrender and are transported to Qala-i Jangi—the "Fort of War." Team Alpha's Mike Spann, an ex-Marine, and David Tyson, a polyglot former Central Asian studies academic, seize America's initial opportunity to extract intelligence from men trained by bin Laden—among them a young Muslim convert from California. The prisoners revolt and one CIA officer falls—the first casualty in America's longest war, which will last two decades. The other CIA man shoots dead the Al-Qaeda jihadists attacking his comrade. To survive, he must fight his way out against overwhelming odds. Award-winning author Toby Harnden gained unprecedented access to all living Team Alpha members and every level of the CIA. Superbly researched, First Casualty draws on extensive interviews, secret documents, and deep reporting inside Afghanistan. As gripping as any adventure novel, yet intimate and profoundly moving, it tells how America found a winning strategy only to abandon it. Harnden reveals that the lessons of early victory and the haunting foretelling it contained—unreliable allies, ethnic rivalries, suicide attacks, and errant US bombs—were ignored, tragically fueling a twenty-year conflict.

Your best friend Lindsay Boxer is pregnant at last! But her work doesn't slow for a second. When millionaire Chaz Smith is mercilessly gunned down, she discovers that the murder weapon is linked to the deaths of four of San Francisco's most untouchable criminals. And it was taken from her own department's evidence locker. Anyone could be the killer—even her closest friends. Or a vicious killer? Lindsay is called next to the most bizarre crime scene she's ever seen: two bodiless heads elaborately displayed in the garden of a world-famous actor. Another head is unearthed in the garden, and Lindsay realizes that the ground could hide hundreds of victims. You won't know until the 11th hour A reporter launches a series of vicious articles about the cases and Lindsay's personal life is laid bare. But this time she has no one to turn to—especially not Joe. 11TH HOUR is the most shocking, most emotional, and most thrilling Women's Murder Club novel ever.

The Callery pear tree standing at the base of the World Trade Center is almost destroyed on September 11, but it is pulled from the rubble, coaxed back to life, and replanted as part of the 9/11 memorial.

This is a single source for developing critical thinking through nearly 1,000 case-based questions with detailed answers. Students learn to think through patient problems--just like practicing nurses do--with the practical and relevant explanations provided.

From 1894/95-1935/36, pt.6 of each volume is issued separately, with titles, 1894/95-1902/03: Code list of merchant vessels of the United States; 1903/04-1935/36: Seagoing vessels of the United States.

Pulitzer Prize-winning journalist Charlie Savage's penetrating investigation of the Obama presidency and the national security state. Barack Obama campaigned on changing George W. Bush's "global war on terror" but ended up entrenching extraordinary executive powers, from warrantless surveillance and indefinite detention to military commissions and targeted killings. Then Obama found himself bequeathing those authorities to Donald Trump. How did the United States get here? In Power Wars, Charlie Savage reveals high-level national security legal and policy deliberations in a way no one has done before. He tells inside stories of how Obama came to order the drone killing of an American citizen, preside over an unprecedented crackdown on leaks, and keep a then-secret program that logged every American's phone calls. Encompassing the first comprehensive history of NSA surveillance over the past forty years as well as new information about the Osama bin Laden raid, Power Wars equips readers to understand the legacy of Bush's and Obama's post-9/11 presidencies in the Trump era.

Learn why NASA astronaut Mike Collins calls this extraordinary space race story "the best book on Apollo": this inspiring and intimate ode to ingenuity celebrates one of the most daring feats in human history. When the alarm went off forty thousand feet above the moon's surface, both astronauts looked down at the computer to see 1202 flashing on the readout. Neither of them knew what it meant, and time was running out . . . On July 20, 1969, Neil Armstrong and Buzz Aldrin became the first humans to walk on the moon. One of the world's greatest technological achievements -- and a triumph of the American spirit -- the Apollo 11 mission was a mammoth undertaking involving more than 410,000 men and women dedicated to winning the space race against the Soviets. Set amid the tensions and upheaval of the sixties and the Cold War, Shoot for the Moon is a gripping account of the dangers, the challenges, and the sheer determination that defined not only Apollo 11, but also the Mercury and Gemini missions that came before it. From the shock of Sputnik and the heart-stopping final minutes of John Glenn's Mercury flight to the deadly whirligig of Gemini 8, the doomed Apollo 1 mission, and that perilous landing on the Sea of Tranquility -- when the entire world held its breath while Armstrong and Aldrin battled computer alarms, low fuel, and other problems -- James Donovan tells the whole story. Both sweeping and intimate, Shoot for the Moon is "a powerfully written and irresistible celebration" of one of humankind's most extraordinary accomplishments (Booklist, starred review).
