Magic. God's. Demigods. None of it's real, right? My life used to be normal. I worked two jobs to save for college, looked after my mother who was ill, and had three very close friends

who meant the world to me. Until one night, everything changed. Now, I'm stuck living here in this gated community as a punishment for murdering someone. The catch? I don't remember any of it. I've always suffered blackouts but I never dreamed I could blackout out and not remembering someone die. How could I forget something that horrible? While I struggle to regain my memories, I also have to deal with new college classes my father insists I take. As the days go by, I start to bond with my step brothers and a mysterious stranger enters my life. I am intrigued by him but also drawn to the others. Is it possible to fall for more than one person? When secrets are revealed, I have no choice to accept, things may not be as clear as I thought.

In mythology, the centaurs are portrayed as lustful, drunken, brawlers, nothing more than a beast for the hero to slay, but every villain is the hero of his own story. Nais, Princess of Boiotia, never expected anything less than an arranged marriage. There were plenty of suitors to choose from. Her father, King Nycteus, a pious man as well as loving father, sought the wisdom of the gods in the matter of his daughter's betrothal. The Delphic Oracle instructed the king to award Nais' hand to the winner of the Olympic Games. It seemed as if the gods themselves would claim the Princess as rumors spread that Nais would wed the son of Zeus, for who could defeat Heracles in competition at his father's own festival? Nais' future appeared favorably certain until a herd of centaurs arrived in Olympia to compete for the Princess.

Why be good when being bad is just so much more fun? Before you read my story, you need to prepare yourself. I'm not some damsel in distress in search of her Prince Charming. I'm not a girl looking to settle down, and most of all, I'm not someone who can be controlled. No, I do the

controlling around here. My name is Angel and I'm the devil's daughter. I know, right? He must have had a lot of fun with that name choice. But you know what? I kinda like it now. Anytime people see the distinctive markings on my skin or hear my name dropped, they run for the damn hills. Why? Because I'm a weapon. I kill whomever I want, whenever I please and there is nothing anyone can do about it. Not even dear old Dad. When opportunity knocks and I'm given the perfect chance to catch a ride out of Hell, I don't think twice. Only the Nephilim who let me tag along with them have no clue who I really am. But when they realize just who they've brought to Earth, that's when the real fun begins. **WARNING:** This is a dark reverse harem novel and contains things that may trigger you if you are sensitive to certain subjects. I strongly advise that you read the note at the beginning of the book before you decide whether to continue with the story. I kept mention of specific triggers from the blurb in an effort to avoid spoiling it for readers, but have detailed them inside the book for your reference. The warning page can be read as part of the sample, so there's no need for you to purchase the book if you aren't sure whether it's for you.

It is difficult today to imagine life before standard time was established in 1884. In the middle of the nineteenth century, for example, there were 144 official time zones in North America alone. The confusion that ensued, especially among the burgeoning railroad companies, was an hourly comedy of errors that ultimately threatened to impede progress. The creation of standard time, with its two dozen global time zones, is one of the great inventions of the Victorian Era, yet it has been largely taken for granted. In *Time Lord*, Clark Blaise re-creates the life of Sanford Fleming, who struggled to convince the world to accept standard time. It ' s a fascinating story of science, politics, nationalism, and the

determined vision of one man who changed the world. Set in a time marked by substantial technological and cultural transformation, Time Lord is also an erudite exploration of art, literature, consciousness, and our changing relationship to time

Have you ever felt like you don't belong, even among your own kind? Been scared to show the world who you really are? Well, join the club. I'm a werewolf, but one who's been forbidden to shift by my father, the Alpha. My beast is locked away in a cage, one that weakens with each passing day. A fight that breaks out during training forces my beast to the surface, after so many years of keeping her hidden and my father has no choice but to reveal the truth about what I really am. My mortal enemy. Does this mean my whole life has been a lie? How do I move forward and uncover the truth about who I am, when even my own blood is false?

BACK COVER The sequel to the Jaredite's Civilization (What the Prophet Ether couldn't Tell Us) is finally out. Book III to shortly follow. Book II tells of the life and times of the Jaredites, the greatest civilization to have ever lived on Planet Earth. It details their earliest beginnings, and enumerates some of their many achievements and accomplishments. It is first mentioned within the Book of Mormon, in Ether 1:42-44. Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel, in Iraq, and a few brief tales of their spiritual trials and wars, up to their final Civil War. Mainstream Archaeology refuses to address this civilization because it would reveal Archaeology's canards about evolution and their false narrative about the Origin of Man. The Jaredites settled and colonized South and North

America, Lemuria, Antarctica, The British Isles and most of western Europe, plus the lands of China and India. For nearly 2,530-years, they maintained a world-wide civilization. My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us. They built all of Egypt. Their Hindu colony fought at least two internal nuclear wars. They colonized throughout our entire Solar System; most moons and all the planets have their cities, mainly covered by 7-mile high glass domes, except Jupiter and Saturn. These two planets each have possible Star War-size "moons" that could be artificial space stations. Mars used to be a moon to its now exploded primary, which is now the Asteroid Belt. Their Martian cities are so immense that New York City and Shanghai combined wouldn't be considered a nickel in a handful of change in comparison to them. Jaredite leftovers are all over Earth if one knows when to look for them. Book III details a few of their many wars, as well as their final Civil War, the first year or two which were nuclear. Through their longevity, they were able to develop their physics to the point to where they could control the weather, as well as to weaponize its component parts. And their final, long prophesied death.

PRAISE FOR EMILY HAUSER: 'Hauser recreates one of the oldest tales in Greek myth with great skill and panache.' The Times 'Once in a while something comes along that's so utterly right, so necessary for now, that you wonder why nobody thought of it before. Emily Hauser's stunning debut novel . . . brings ancient Troy wildly, raucously, passionately alive.' Manda Scott, bestselling author of Boudica and Into the Fire 'A delight from start to finish. Hauser's fresh perspective on one of the great archetypal epics, in focusing on the marginalised women's stories, makes for fascinating reading . . . a clever premise and thoroughly enjoyable.'

Elizabeth Fremantle, author of Sisters of Treason 'Kept me utterly absorbed. Here is a heroine to cheer for, and a book to cherish.' Margot Livesey, author of The House on Fortune Street 'Beautifully descriptive . . . drawing the reader into a lost world of gods and heroes.' Glyn Iliffe, author of King of Ithaca
